

Untamed Beauty, Refined Comfort

Perched high above the Serengeti plains, Serengeti Lake Magadi offers a front-row seat to Africa's untamed beauty, where sweeping views stretch across Moru Kopjes, the Mbalagati River, and Lake Magadi. Set within a vital wildlife corridor, the lodge blends refined luxury with the raw rhythm of the wild, immersing guests in iconic landscapes, abundant wildlife, and the drama of the Great Migration. Thoughtfully designed suites open seamlessly to nature, allowing every moment, from sunrise to starlit nights, to feel deeply connected to the Serengeti, all delivered with warm Tanzanian hospitality and an authentic safari spirit.

SERENGETI NATIONAL PARK

A UNESCO World Heritage Site, the Serengeti National Park pulsates with life: with over 2 million ungulates, 4000 majestic lions, 1000 elusive leopards, 550 sleek cheetahs, and a kaleidoscope of some 500 avian species within its vast expanse spanning close to 15,000 square kilometers. Embark on an adventure with us and immerse yourself in the boundless Serengeti savannas, peppered with verdant trees and rocky outcrops where regal lions preside over their domain. Witness the breathtaking spectacle of the Great Migration, or embark on a quest to spot a stealthy leopard amidst the riverine forests. Alternatively, ascend to the heavens for a bird's-eye vista and drift over the plains at sunrise aboard a majestic hot air balloon.

HIGHLIGHTS

- Overlooking the Makoma Hills and Moru Kopjes, known for lion and leopard activity
- Well known for a high concentration of resident cheetahs
- Uninterrupted views across the Serengeti plains
- Set within the Serengeti wildlife corridor
